Fall 2021

Hello!

It is my honor to join you in presenting our comprehensive Board of Directors materials. I believe this book will be an excellent resource and become the foundation of our work as we collaboratively support the RMHC Mission.

The mission of RMHC-Madison is to create, find and support programs that directly improve the health and wellbeing of children and their families.

We can do this only because of our community's innovation and generosity. *Thank you for being a member of the Board and sharing your time and expertise, both personally and professionally.*

Through your commitment, I feel strongly that the strategies we construct for 2021-2022 will be accomplished diligently, setting the stage for consistent, productive years to come. We have dedicated ourselves to providing the most comfortable experience possible for our guest families. Witnessing their senses of relief, appreciation, and protection is heartening—and exactly what we're meant to do.

Please--never hesitate to call.

Sincerely, on behalf of the staff, volunteers, and the families we serve,

Kelly Ruppel

Executive Director, Ronald McDonald House Charities Madison
